KRAFTFORM ERGONOMICS

ANTI ROLL-OFF

EAN:	4013288000460	**Size:**	98x33x33 mm
Part number:	05002900001	**Weight:**	46 g
Article number:	80	**Country of origin:**	CZ
		Customs tariff number:	82054000

- Kraftform handle with 10 mm hex bolster
- Not suitable for bits with ¼" hex drive
- Kraftform handle for high working speeds and ergonomic screwdriving
- Hexagonal anti-roll feature against rolling away
- Suitable for insertion of 6 mm Vario blades or a Vario adaptor
- Multi-component handle without any 'sticking' to the hand

6 mm Vario blade adaptor. Kraftform Plus handle for pleasant, ergonomic working that makes blisters and calluses a thing of the past. Hard gripping zones for high working speeds whereas soft zones ensure high torque transfer. The hexagonal non-roll feature prevents any annoying rolling away at the workplace. The integrated hex bolster allows higher torque to be applied with an open-end or ring spanner.

80 Vario handle, 6 x 98 mm

Kraftform Kompakt Vario without Ratchet Function - 6 mm Vario blades and adaptors.

Kraftform

The basic idea for the prototype of the Kraftform handle - that the hand should dictate the design - has, right through to today, proved to be correct. In cooperation with the internationally recognised Fraunhofer IAO Institute, Wera developed a screwdriver handle designed to match the shape of the human hand as long ago as the 1960s. After a long development phase, the Wera Kraftform handle was launched to the market in 1968. It has been optimised through the years with new technologies, but has kept its proven shape. After all, the human hand has not changed either.

Prevents hand injuries

The outstanding design of the Kraftform handle that fits perfectly into the hand prevents hand injuries such as blisters and calluses.
