8100 SA All-in Zyklop Speed Ratchet Set, 1/4" drive, with holding function, metric, 42 pieces

The Zyklop Speed Ratchet, 1/4"

EAN:	4013288190994	**Size:**	220x140x70 mm
Part number:	05003755001	**Weight:**	1240 g
Article number:	8100 SA All-In	**Country of origin:**	CZ
		Customs tariff number:	82041100

- 42-piece ratchet set in robust textile box
- Freely pivoting ratchet head with 5 predefined locking positions
- Bit-sockets with all the advantages of the Wera bit technology
- TORX®, hex plus and hexagon nuts with holding function for screws / nuts
- Suitable for Wera 2go

Incredibly compact set arrangement with many tools in a minimum of space. A completely new ratchet set feeling thanks to the unique textile boxes that are very robust and durable. They can be positioned upright for tidy storage on the workshop shelf. Additional surface protection due to textile outer material. Low weight and volume for simpler mobility. "Take it easy" Tool Finder with colour coding according to sizes.

Incredibly fast ¼" Zyklop Speed ratchet with pivoting ratchet head and 5 predefined locking positions

Zyklop “6 in 1”

1. Fine-tooth ratchet 2. Flex-head ratchet 3. Angle ratchet 4. Quick-release ratchet 5. Power ratchet 6. Screwdriver

Bit sockets with holding function for TORX® screws

The HF tools developed by Wera are ideal because they feature an optimised geometry of the original TORX® profile. The wedging forces resulting from the surface pressure between the drive tip and the screw profile mean that TORX® screws made according to Acument Intellectual Properties specifications are securely held on the tool!

Bit sockets with retaining function for hexagon socket screws

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

Sockets with retaining function for hexagon headed bolts, screws and nuts

The clamping of the screw is achieved by a twin spring loaded ball retention system. The tubing is effectively protected against mechanical wear and tear by a steel ring. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to secure the screw.

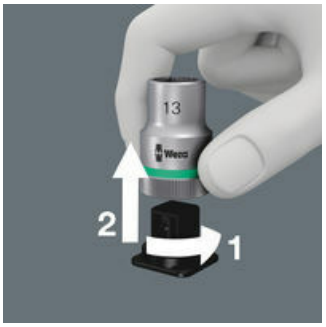
Take it easy tool finder system

Take it easy tool finder system - with profile and size colour-coding for quick and easy tool selection. Colour-coded system for hexagon drive screws (L-Keys, Zyklop bit sockets), external hex drive screws and nuts (Joker wrenches, Zyklop sockets and Zyklop bit sockets with holding function), and TORX® drive screws (L-Keys, Zyklop bit sockets).

Nut extractor tool

This tool enables hexagon nuts to be easily removed from sockets with holding function.

Secure hold and easy removal



The all new smooth turning mechanism guarantees both secure and rattle-free storage, yet allows easy removal of the tool.
