851/4 Harpoon DC bits, PH 2 x 70 mm

EAN:	4013288189929	**Size:**	50x7x6 mm
Part number:	05161010001	**Weight:**	7 g
Article number:	851/4 Harpoon DC	**Country of origin:**	CZ
		Customs tariff number:	82079030

- For Phillips screws
- With reduced shaft diameter
- Diamond coating for a secure fit in the screw, literally bites into the screwhead to prevent cam-out
- Tough for hard materials
- 1/4" hexagon drive (Wera connecting series 4)

High quality Wera bit for Phillips screws, tough, for universal use. Reduced shaft diameter. The diamond coating ensures a secure fit of the bit in the screw, reduces the contact pressure required and lowers the risk of slipping. ¼" hexagon, suitable for holders as per DIN ISO 1173-F 6.3.

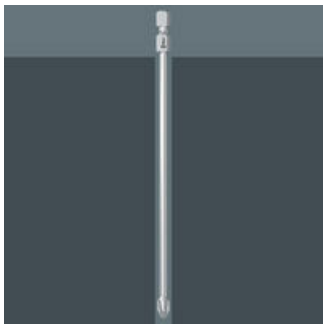
Bits with reduced shaft diameter

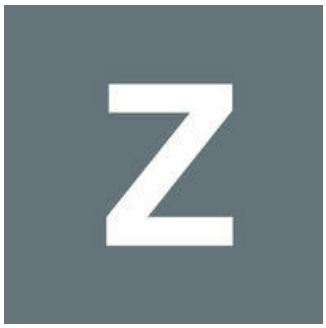


Bits with reduced shaft diameter ensure that screws can be sunk without damaging the surface.

Diamond-coated Bits

One of the greatest problems with power tool applications is that the conventional bit easily slips out of the head of the screw (cam-out). This often destroys both the head of the screw and the tool. High resulting costs are incurred e.g. from damaged surfaces and screw connections that can no longer be loosened. Screwdriving will become safer and more economic if this problem of slipping can be minimised.

Tough-absorbing bits



Tough-absorbing Wera bits (Z) prevent any premature breakage of the drive tip.
