**Subject: Package Change for Select LOCTITE® Anaerobic and Acrylic Adhesives in 30ml Syringe**

Dear Valued Customer,

The syringe and plunger for products listed below have been discontinued by the vendor. An alternative syringe and plunger have been validated.

IDH	Product Name
1134601	LOCTITE 2422 HI TEMP TL MS 30G
1138282	LOCTITE 2620 HI TEMP TL HS 30G
135255	LOCTITE 383 25ML
135256	LOCTITE 384 SY25ML
160799	LOCTITE 315 SY25ML
195733	LOCTITE 384 KT25ML
237043	LOCTITE 383 KT25ML

The barrel of the new syringe is made of the same resin as the discontinued syringe and is 5/16" shorter (shown below). The volume fills are the same. The dispensing tip of the new syringe is longer than the discontinued version, however the tip orifice remains unchanged at 0.25". The sides of the new plunger are smooth, not jagged like the discontinued plunger. Shelf life of packaged product remains unchanged with this change of syringe and plunger.

We value your continued business with Henkel and are here to address any concerns or questions you may have regarding this syringe and plunger change. Henkel takes pride in providing best in class products, and we look forward to continuing to support your application needs. Please address concerns or

questions to your local Henkel Sales Representative or Henkel Technical Customer Service ([tech.services@henkel.com](mailto:tech.services@henkel.com) or 855-436-5354).

Sincerely,

*Sandra Adams*
